Experience

Freelancer
Jun. 2022 — Present

Webique Agency · Niš, Serbia

- Strong background with a proven track record of delivering **innovative solutions** aligned with the latest technological trends.
- Proficient in both frontend and backend technologies, creating **cohesive and scalable solutions**.
- Experienced in developing **user-friendly** and **visually captivating** web and mobile interfaces.
- Dedicated to **staying updated** on emerging technologies and best practices to ensure **cutting-edge contributions**.
- Established a **development agency** specializing in modern web and application solutions, delivering **exceptional results** to clients.

Project examples:

1. **Emil Fitness App**
   - Developed a fitness web application that allows fitness trainers to track their clients progress, while also making purchasing and following the workout plans easier for clients.
   - Designed the UI and UX for the whole application.
   - Worked on complex business logic on the frontend.
2. **Mat Promet**
   - Created a e-commerce shop for Mat Promet company making purchasing items from their warehouse easier for customers.
   - Developed a complex full stack application that uses NextJs as a core framework.
   - Integrated mailing systems for tracking orders.
3. **Libra Lab**
   - Modern and functional website providing users with easy access to essential information about services and pricing.

Note: These three projects are only examples of many other successful projects.
