Petar Marković

Profile

Full-stack developer with 4+ years in building scalable web and mobile applications using Angular, Next.js, React, Spring Boot, and Python frameworks. Delivered enterprise systems for universities and e-commerce platforms, integrating real-time features via Kafka, RabbitMQ, and WebSockets, while optimizing UI/UX for user engagement and performance. Excelled in agile environments, founding a development agency to provide innovative solutions aligned with client needs, earning scholarships for academic excellence in IT engineering.

Experience

Full-Stack Developer Internship

DualSOFT

Apr. 2025 — Jul. 2025, Niš, Serbia

- Gained hands-on experience with enterprise Angular applications, implementing reactive UI components and state management
- Assisted in developing Spring Boot microservices, contributing to API design and database integration with PostgreSQL
- Participated in implementing event-driven architecture using Kafka and RabbitMQ for real-time data processing
- Supported WebSocket integration for live notification features
- Worked within an Agile team to deliver modular system components
- Documented technical processes and participated in code reviews

Full-Stack Developer
University of Metropolitan | iMET
Aug. 2021 — Apr. 2025, Niš, Serbia

- Working as a Frontend Developer, focusing on creative solutions using Angular for the frontend.
- Utilizing Spring Boot to design seamless and efficient backend endpoints.
- The project was divided into distinct modules, each addressing specific roles and functionalities, while sharing common modules for scalability.
- Delivered a highly scalable enterprise system, reflecting the project's impact and significance.
- Developed a reporting system for university staff using Python and Flask, enabling data-driven insights.
- Facilitated the analysis of key performance indicators (KPIs) and critical metrics, extracting meaningful patterns from extensive datasets.

Freelancer
Webique Agency
Jun. 2022 — Present, Niš, Serbia

- Strong background with a proven track record of delivering innovative solutions aligned with the latest technological trends.
- Proficient in both frontend and backend technologies, creating cohesive and scalable solutions.
- Experienced in developing user-friendly and visually captivating web and mobile interfaces.
- Dedicated to staying updated on emerging technologies and best practices to ensure cutting-edge contributions.
- Established a development agency specializing in modern web and application solutions, delivering exceptional results to clients.

Project examples:

1. **Emil Fitness App**
   - Developed a fitness web application that allows fitness trainers to track their clients progress, while also making purchasing and following the workout plans easier for clients.
   - Designed the UI and UX for the whole application.
   - Worked on complex business logic on the frontend.
2. **Mat Promet eShop**
   - Created an e-commerce shop for Mat Promet company making purchasing items from their

warehouse easier for customers.
- Developed a complex full stack application that uses NextJs as a core framework.
- Integrated mailing systems for tracking orders.
3. **Libra Lab**
    - Modern and functional website providing users with easy access to essential information about services and pricing.

Education

University of Metropolitan

Aug. 2021 – Present, Niš, Serbia

Enrolled in the department of IT Engineering
- Recipient of the IST Scholarship for outstanding academic performance
- Awarded Certificate of Excellence as the Best Student for the department of IT Engineering for the year 2023/2024

Medical High School Dr Milenko Hadžić

Sep. 2017 – Jul. 2021, Niš, Serbia

Laboratory Technician (Major), Nursing Technician (Major)

Skills

Technical Skills:
Javascript, Typescript, HTML, CSS, SCSS, Java, Python, MySQL, PostgreSQL

Frameworks and Technologies:
Angular, NextJs, React, Node.js, SpringBoot, Flask, Django, Kafka, RabbitMQ, Web Sockets

Developer Tools:
WebStorm, PyCharm, IntelliJ, Visual Studio Code, Git, GitLab, Figma, Jira, Trello, Click Up, Notion, Linux
